

Catalog of Provider Directories

2015—ANNUAL

Each directory is listed in alphabetical order with the associated catalog identification on the left. State directories include all hospitals, ancillary healthcare facilities and physicians located in the state. Custom directory requests can be made by your Account Manager on your behalf. If a directory exceeds 200 pages total, it may not be possible for us to bind them for you. Custom directories can also be created at www.multiplan.com. The number of pages in each directory is shown to the right. Click on the appropriate PDF ID to access the file.
