A MULTIPLAN NETWORK

National Catalog of Provider Directories

April 2011 - Annual

Each directory is listed in alphabetical order by state with the associated catalog identification on the left. State directories include all hospitals, ancillary healthcare facilities and physicians located in the state. If a directory exceeds 200 pages total, it may not be possible for us to bind them for you. Custom directory requests can be made by your Account Manager on your behalf. Custom directories can also be created at www.beechstreet.com. The number of pages in each directory is shown to the right.
